d'Orzu

At d'Orzu, we believe true beauty shines from within. It's about embracing who you are and striving to be your best self, because skin tone doesn't define beauty. Our products are crafted with diversity, care, and a personal touch.

d'Orzu

Rose Secret Collection

Enjoy Your Glow, Bloom with Confidence

The unique blend of Korean Baby Rose and Alpha Arbutin in every Rose Secret product, designed to reveal your radiant self

d'Orzu

Korean Baby Rose (한국 아기 장미)

Enjoy Your Glow, Bloom with Confidence

Function:

*Addresses oily pores (dullness & acne)
and sagging pores (aging).*

Action:

*Controls sebum, cleanses, moisturizes,
restores skin elasticity, and softens.*

Korean Baby Rose (한국 아기 장미)

Key Ingredients

Alpha Arbutin

High Quality Grade

A well-tolerated alternative to hydroquinone, often called "natural hydroquinone". Its main function is to brighten and even out skin tone. It reduces pigmentation by stopping tyrosinase caused by UV rays, preventing excessive melanin production.

For optimal brightening, pair it with Korean Baby Rose and Vitamin C. This ingredient also helps hydrate and is well-tolerated by sensitive skin, as it doesn't cause irritation.

Juventide™

A patented retinol-mimetic serum derived from the *Asteria Vulgaris* starfish. Sourced sustainably in partnership with shellfish aquaculture operators, respecting the marine ecosystem.

After a harmless and gentle extraction process of internal coelomic fluid, each starfish specimen is returned to its natural marine habitat for rejuvenation.

Unlike traditional retinol, it doesn't cause unwanted skin effects and has an excellent topical safety profile suitable for long-term use.
